Daystate Tsar .177 Air Rifles

£ 2,157.88

Description

ONE IN STOCK TSAR NEW DAYSTATE DESIGNED WITH A SINGLE AIM ---- WINNING RIGHT HAND AND LEFT HAND STOCKED Perhaps the ultimate in Field Target hardware. The NEWLY released DAYSTATE TSAR is a Match Ready, FULL ON FT rifle developed in collaboration with Top Russian match -shooting partnership, ATAMAN/DEMYAN. It continues Daystate`s rich legacy of match winning FT models for shooters who compete at the highest national and international and international level of airgunning`s most challenging outdoor target shooting discipline. Uncompromising in every area of its of it`s highly sophisticated action, the Tsar includes features like a five level adjustable, multi-sear trigger system that`s controlled by a multi adjustable blade, and a high precision, match grade stainless steel Lothar Walther barrel. Its side-lever cocking system also allows for dry firing practice, where you can fine tune your trigger technique without actually firing off a shot. Designed to maximise shooter control , the stock that cradles the Tsar`s action is every bit as state of the art. Constructed in laminate to eliminate any stresses imparted between wood and metalwork during the rifle`s charge cycle, its thumbhole design is crafted with both form and function in mind. Boasting an array of multi-adjustable features - including its anatomical grip/palm rest, cheekpiece and butt pad - to achieve a tailor made gunfit, every conceivable benefit is brought to the shooter, whether faced with a sitting, prone, kneeling or standing shot. The Tsar - designed and built without compromise to be an unashamed trophy winning machine. Phew, that was a mouthfull!
