Beretta M92 FS XXTREME .177 Air Pistols

£ 295

Description

You know it has to be good when it has not one, but TWO Xs in it's name. The Beretta M92 FS XXTREME is the classic black M92 FS with all the bells and whistles. With a moderator, red dot sight and 2 mags it really is a great kit for the price! Comes boxed up and all with a hard case. I'm having problems with gun star and not all the pictures are uploading right now, so sorry about that!
