Beretta .177 Air Pistols

£ 249.95

Description

Possibly my favourite pistol at the moment. While the gun does come in black I really like the look of the Beretta M92 FS in the nickel plate with the wooden handles. It has a serious weight to it and really stands out with the build quality. We have them brand new and in stock here at City Air Weapons and Firearms, so get in contact if you are interested!

Condition: New

Sale type: Trade
