Daystate Delta Wolf Air Rifles

£ 2,450

Description

DELTA WOLF The latest innovation from Daystate , the leaders of Airgun Technology. The "minimalist gun with maximum technology" Well what a gun. Had a great visit from Simon and Rachel or Rachel and Simon. This gun is something else, the barrel is "chronographed" so each shot is consistent, never mind being electronically controlled with a beautifully crisp trigger. Change calibre in minutes, Carbon fibre 30mm shroud and very quiet. Adaptable and electronically adaptable. Very impressed! If you want one of these , you need to pre order , else you will be dissapointed...0121 742 1329 City Air Weapons Birmingham (formerly Solihull) New shop but still best cup of tea in the trade. Available in 12ftlb and High Power.
